How to Grow Your Business with a Fractional CMO

Your 6-month plan.

START HERE

You started a business, not a marketing department.

You're great at what you do. Your customers know it. But marketing keeps sliding to the bottom of the list.

Posts go out when business slows. Ads run with no plan. Money goes out, and you're not sure what's working and what isn't. It's frustrating to work this hard and still be guessing.

You shouldn't have to become a marketing expert to grow your business.

You don't have to do it alone. I'm a small business owner, too. I know what it's like when marketing is one more job on your plate. As your Fractional CMO, I lead your marketing for 10 hours a month. You stay in charge of the business.

Here's the plan

1. **Fix the basics**
2. **Bring in leads**
3. **Make it run**

Six months from now

YOUR CURRENT PATH

Marketing stays at the bottom of the list. Busy months, then slow ones. You keep spending and hoping.

WITH A PLAN

You know what to say and where to say it. Your marketing runs every month, not just when business slows. You're no longer throwing away money.
